

Every day, Clark Seif Clark professionals are deployed across the nation helping both large and small customers resolve health & safety, industrial hygiene, environmental and indoor air quality issues.

At a moment's notice, Clark Seif Clark can send their experts anywhere they are needed. No matter if it's in response to a hurricane, flood, tornado, or other natural disaster, Clark Seif Clark is ready to help and can respond in no time at all.

## Clark Seif Clark's Derrick Denis Elected as IAQA's 1st Vice President

Last month, the Indoor Air Quality Association (IAQA) wrapped up their 17th Annual Meeting & Indoor Environment & Energy Expo (IE3) in Orlando, Florida. The important event brought together indoor air quality (IAQ) professionals from across the globe.

At the event, the IAQA's Board of Directors held their annual election of officer for the 2013-2014 terms. Derrick Denis, CIEC, CIAQP, of Clark Seif Clark, Inc., was once again elected to the position of IAQA's First Vice President.

Derrick has made a name for himself in the indoor air quality industry due to his years in the industry and past positions he has held within the IAQA. Those positions have included Vice President, Treasurer, Chapter Relations Committee Chair and more. He remains the current Director of the Phoenix, Arizona Chapter of the IAQA.

During the technical presentations, he also had the opportunity to share his knowledge and expertise. "Asbestos: Debunking Myths, Spreading Truths & Sharing Advice for the Real World" was attended by many who learned directly from Derrick's many years of experience investigating and mitigating issues dealing with asbestos in residential, commercial and industrial facilities.

"It's a privilege to continue to serve the Indoor Air Quality Association and its members," reported Derrick. "IAQ issues are

## IAQ & HVAC Veteran Joins the Growing Team at Clark Seif Clark

Clark Seif Clark is pleased to announce that Joe Johnson has joined the company's team of environmental and building science experts. Mr. Johnson has been involved in the fields of construction, HVAC and indoor air quality for over one and a half decades. He maintains certifications as an Asbestos Inspector and AHERA Contract Supervisor.

Mr. Johnson's extensive work history involving indoor air quality (IAQ) and building science issues began with a position in the 1990s with a major air conditioning contractor. He then founded Custom Air Design, Inc., which was based in the Phoenix area and was General Manager of SelectBuild Mechanical's HVAC division. Mr. Johnson also has experience working with local governments and was the Vice-Mayor of the City of Surprise, Arizona, from 2009 through 2010.

"I would like to introduce Joe Johnson, our most recent addition to CSC, Inc.," stated Timothy Hebert, Controller/Personnel Director for CSC. "Joe has knowledge of IAQ and experience incorporating energy efficiencies into the building design and construction process. He shares the same passion for customer service, quality, and professionalism that are the hallmarks of CSC. We are pleased to have Joe as a member of our team and an asset to our clients."
